Poland in the Rockies is an 11-day international educational program bringing together university students and distinguished speakers from Canada, the United States, Great Britain and Poland for an immersion in "things Polish."

Set in the beautiful Canadian Rocky Mountain town of Canmore, Alberta, **July 20-31, 2006**, *Poland in the Rockies* is a place for learning about Polish history and culture, for discussing contemporary issues and the Polish heritage, for making new friends and creating links with the world-wide Polish community.

The program, intensive and intellectually stimulating, includes class time, formal lectures, films, and discussions, both formal and informal. Communal meals, excursions, hikes and campfires, create a relaxed atmosphere of easy camaraderie.

The objective: to stimulate an interest among English-speaking Americans and Canadians in Polish history and culture through lectures, films, discussion and friendship; to create a network of well informed and dynamic friends of Poland; and to encourage Polish Americans and Polish Canadians to integrate their identity and "things Polish" into the mainstream of North American life.

Organized on a not-for-profit basis, by the Polish Canadian Association of Calgary in association with the Canadian Foundation for Polish Studies in Montreal, *Poland in the Rockies* has the support of many Polonia organizations and individual Polish Canadians and Americans. This support comes through sponsorship of students by funding full scholarships or by contributions towards a scholarship fund.

Student Sponsors: Organizations, businesses, professional groups, and individuals that contribute sufficient funds ($3500.00 Canadian) to cover the cost of at least one student to attend the program;

Friends of Poland in the Rockies – Any donation below the category of **Student Sponsor** is greatly appreciated and will be gratefully acknowledged.

We ask Polonia organizations, professional groups, businesses and individual Canadians and Americans to make an investment in our young people and make it possible to create a large scholarship fund.

Tax deductible contributions, clearly designated for the support of *Poland in the Rockies*, can be made to the Polish Institute of Arts and Sciences in Canada, 3479 Peel St., Montreal, Quebec H3A 1W7 (www.biblioteka.info) and PIASA in the United States, 208 East 30th Street, New York, NY 10016 (www.piasa.org). If a tax receipt is not required, please make donations to support *Poland in the Rockies* directly to the Polish Canadian Association of Calgary.

We also encourage organizations and individuals to create their own regional scholarships for *Poland in the Rockies* for qualified students from their own areas. Simply notify us that you have earmarked funds for a deserving applicant from your region and have the candidate submit his or her application. Such an initiative will help broaden the network of *Poland in the Rockies* alumni, add regional diversity, and strengthen local interest.

Scholarships are granted on the basis of a student's curriculum vitae, letters of reference, and the essay explaining the motivation for attending. A full scholarship includes tuition, accommodation (11 nights), three meals per day, transportation costs in Alberta, and group excursions. It does not include the cost of return airfare to Calgary.

Comments from participants in *Poland in the Rockies* 2004

Norman Davies:

"Poland in the Rockies" hit on exactly the right formula.

Krzysztof Zanussi:

Participating in PitR (Poland in the Rockies) provided me with an opportunity to meet a new generation of Polonia, one with a completely new way of doing things. This was a unique experience for me -- I had never attended a seminar where young people gathered to learn about Poland in a modern, critical way... The young people I met made a very favorable impression on me; they were thoughtful, critical, seeking information, -- It was obviously a well chosen group of young people with a bright future...
They were well prepared to reject negative anti-Polish stereotypes and to stand up to anyone belittling Poles or any other ethnic groups.

Student comments:

I wanted to thank you and all the people involved in organizing Poland in the Rockies... I must say that when I applied for the scholarship, I did not realize the scope of this event… Though it is difficult for me to judge if I made the most of this opportunity, I must say that your accomplishment in organizing Poland in the Rockies reawakened my zeal for involvement in matters of Polonia**.** ***M.B., Chicago***

The Poland in the Rockies program was rich and valuable. I became aware of certain elements of Polish history of which I was previously ignorant. For example, I had never encountered Żegota in my studies, nor did I know much about the extent of Polish deportations to the Soviet Union during World War II and the fate of those people. The high caliber of speakers… their eagerness to interact with us outside of their lectures, be it eating breakfast or sightseeing with us, and always being open to conversation... ***A.N., Edmonton***

This conference has had an impact on me I have yet to realize. I want to be involved in the Polish community, and I am also considering studying at Jagiellonian University after I graduate. B.B., Montreal

The quality of the speakers who were invited to Canmore, as well as the enthusiasm and commitment of all of the organizers present throughout the eleven days, were truly remarkable. It was difficult not to feel inspired by the passion of those who came to share their work with us. ... Please know that if there is anything that I can do to help secure the program's future I will be more than happy to help… ***A.P., Toronto***

I was really pleasantly surprised by the level of professionalism, high quality of the speakers and organization, and overall quality of students. As the first such conference, it was more than successful, and I hope there will be more in the future as a result.

V.J., New Haven CT

.. the experience surpassed all expectations that I had prior to the program. Not only did I feel like I learned about my heritage and my identity as a Polish-Canadian, but it provided me the tools as well as the network to be able to further raise awareness about issues that are important to all Poles living in North America (both those born here and in Poland, now living here)… ***R.T. Montreal***
